

Heavy Duty Door Holders

Arguably the single most important fire safety mechanism, electromagnetic door holders guard against the lethal spread of toxic smoke and fumes - by far the greatest cause of death in fires.

The VimpeX EN 1155 approved heavy duty range of door holders offers the installer a choice of mounting styles and holding power.

Mounted onto a fixed surface, these door holders ensure retention of the fire door by means of a smart metallic keeper plate. Interfaced with the fire alarm system, the door holders are de-energised as soon as the fire is detected thus releasing the door without the potentially harmful delay suffered by other types of devices.

Features

- Two versions available: wall mounted and floor mounted
- Heavy duty casting is vandal resistant
- Two holding forces available - 200N and 500N
- Designed for where accidental damage or vandalism is a problem
- Ideal for areas such as schools, hospitals, warehouses, car parks
- Approved to EN 1155 and CE marked

Spares & Accessories

DH/KP/STND: Keeper Plate, Floor Mounted 200N
 DH/KP/LP/500: Keeper Plate, Floor Mounted 500N
 DR/KP: Keeper Plate, Wall Mounted

Specification

Part Number:	Description	Rated Voltage	Nominal Current	Holding Force	Temperature Range	IP Rating	Door Closure Power Size	Weight
DH/HD/FM/200:	Floor Mount DC	24 V dc	45 mA	200N	0-30°C	N/A	3 to 6	700g
DH/HD/FM/500:	Floor Mount DC	24 V dc	90 mA	500N	0-30°C	N/A	3 to 6	1000g
DH/HD/WM:	Wall Mount DC	24 V dc	45 mA	400N	0-30°C	N/A	3 to 6	550g
